Featured yacht of the year 2022 in Taiwan

Boke 125

Monte Fino Custom 125 Trideck Superyacht's exterior lines and naval architecture were designed and developed by Kha Shing's in-house design team, with inspiration from an earlier Monte Fino model. The Custom 125 boasts custom features that include an asymmetrical deck design, large GRP hardtop, foredeck entertaining space with a jacuzzi tub, a jet ski garage and a large swim platform with hi low lift. Floor-to-ceiling windows provide beautiful panoramic views of the sea from the main deck salon and dining areas, as well as the Sky lounge. The interior of this Custom 125 offers incredible volume in the living areas. The spacious interiors were jointly designed by SOIC (Ship and Ocean Industries R&D Center) and Kha Shing's in-house design team. The adoption of advanced building processes within the design reduced the build time. She sleeps 10 to 12 guests in her five staterooms, including a beautiful full beam, on deck owner's stateroom. The spacious forward crew area is accessed directly from the port main deck galley and comfortably accommodates at least 6 crew members in one Captain's cabin and two crew cabins. Benefiting from the asymmetrical deck configuration, the main deck salon and dining area offer additional interior space and enhance the views that bring the seagoing experience inside. The Sky lounge offers spectacular views and is equipped with a cinema lounge and a large Japanese teppanyaki dining bar with refrigeration and a wine cooler. The yacht was built in compliance with R.I.N.A. classification. She is powered by twin Caterpillar C-32 Acert 1925 mHP engines. The yacht can reach a top speed of 21 knots and cruises comfortably at 16 knots.
